DETAILED ACTION

The papers dated 7-22-2009 have been entered and are treated herein.

Oath/Declaration

1. The reissue oath/declaration filed with this application (dated 7-22-2009) is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Reissue declaration dated 7-22-2009 is not in compliance with 37 CFR 1.175 in that the statement of error relied upon is not a proper statement of error.

The declaration has not set forth what the error in the patent is. Applicant never indicated what error exists in patent claim1. Applicant merely indicates that "the error being relied upon . . . is the Examiner's conclusion that I claimed more than I had a right to claim in the '950 patent, in accordance with the examiner's December 6, 2006 prior art rejection of the subject matter of claim 1 of the '950 patent as being obvious over the prior art." This does not however indicate why the scope of claim 1 is too broad. It is not clear from this statement what limitations are required for patentability and/or what prior art renders the claim unpatentable.

Additionally, applicant indicates, "the Examiner's conclusion that I claimed more than I had a right to claim," but Applicant never indicates that he believes that he claimed more than he had a right to claim.

According to MPEP 1414, II, (C), "Any error in the claims must be identified by reference to specific claim(s) and the specific language wherein lies the error"

(emphasis added). Applicant has not pointed out what the canceled claims lack that the remaining claims contain. It is not clear from the declaration what elements are necessary to render the claim patentable relative to the original claim 1.

2. Claims 1, 3, 4, and 6-22 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
